

Why do churches close their doors

after crisis, or struggle to stay open, while reporting physical, mental and emotional attacks among members and lay leadership, when the original violating event that occurred—has long since passed?

If Christians know and believe the Word of God and worship Christ as their Lord and Savior, why do we still struggle with the things of the world - without relief?

Where are the answers and resources that we need to address the very real, hardcore problems that meet us day-by-day without losing our families, our marriages or our sanity?

JOIN US!

As we create an online community providing hardcore answers to hardcore problems in a very real and practical way.

Establishing a World Wide Community that promotes healing within a safe and anonymous environment.

Through this online community and educational resource we reveal ...

- ▷ Patterns of cause-and-effect that pastoral leaders, ministry leaders and members experience in church-crisis
- ▷ Deceptive beliefs and mindsets that lead people to violent and immoral behaviors against one another arising from church crisis.
- ▷ Repercussions that destroy marriages, families, spiritual paralysis and exodus of church members
- ▷ How this affects the church as a whole, its members and the community
- ▷ The hidden roots that make restoration nearly impossible and why recovery at best is only a maintenance-mode existence
- ▷ The correlation between sexual incest survivors and church-crisis survivors
Impact of mental, emotional and physical health

To provide ...

- ▷ Help for Pastors and “After Pastors” as well as congregational members to receive adequate and continued counseling
- ▷ Resources to uncover individual belief systems and mindsets that block wholeness.
- ▷ A healthier pastoral support system for struggling pastors BEFORE crisis strikes
- ▷ To equip leadership with the ability to identify toxic behaviors and mindsets that if left unchecked, becomes a catalyst for church-crisis.
- ▷ To educate individuals in and out of leadership how patterns of abuse and addiction are learned and enabled through misunderstanding of scriptural principles and how to know the difference between truth and belief.

Are you someone who ...

Is seeking a **safe community** of men and women who understand the challenges of ministry and have a need to take off the ministry garment to **just be yourself among peers in a safe environment?**

Is **seeking answers** that address issues such as addictions, PTSD, depression?

Is a **professional** who is interested in receiving more information about joining our online team?

Is interested in **supporting** this project financially on a regular or one-time basis?

Has resources or knowledge of **online tools** that you would like to share?

Would like to **subscribe** to our updates and online workshops?

Email or call Shannon Parish at:
