Her online scammer the general had promised to send her the suitcase of gold diamonds in cash

00:06

and met a man named Jeffrey Daniels. Jeffrey was supposed to bring me the luggage but instead he brought me white cash in order to use it. I had to put a solvent on it to make it usable cash. Let my sister Yeah, it was a suitcase of counterfeit money. It does look like two pieces of white paper. This is how the rebels hide their money in their hideouts. This cash is real hundred dollar bills because when I was at the motel, Jeffrey Daniels washed three bills for me. My sister thinks is real. She did span a couple other bills at local convenience stores. She could have been murdered. She has no idea the danger she has put herself in.

00:50

lowest was nervous to travel with the white money, which she says totaled approximately \$136,500 when she counted it. It was supposed to be more Right.

01:01

I thought it was but I didn't realize it was that as that last but

01:05

yes. You thought it was more but it turned out when you counted it was her in 36,500. Oh, she thought it was like 180. So

01:12

yes, I thought originally Yes, I thought it was

01:14

okay. So we say the courier service to transport it in the safe that she kept it in to ensure that it arrived safely. Okay, now, come down here with me. Lois, mailed a key in a Ziploc bag. And this is the key, right? Yes, it looks like the key. And that's to this safe. Yes. And in this safe if everything has gone well is the money that you received in a hotel room that day? Right, right. Okay, so

01:58

and we've kept this

02:00

We've kept this locked up in the producers office.

02:08

Okay. Now, inside I see what you're talking about are two bundles of white money here.

02:24

So these are hundred dollar bills that have been locked in here. And they've been treated in some way, right?

02:34

Yes, you have to get a solution to take the hundred dollar bills. Right.

02:40

And this is what was used to wash the \$300 bills that he used for the demonstration. Okay, so this is made in France. It's extremely expensive. It's \$6,500. That is what Jeffrey Daniels explained to you right and Lewis says Jeffrey Daniel said he could buy it for her, but she needed to pay him first. Well, our team did some research and located the solution which has been placed inside of this bucket. And so Lois is now going to walk us through what Jeffrey Daniels explained to her. So what exactly did he say? And what did he do?

03:21

He put it in the water and he washed it in. They dried it with a blow dryer. Yeah.

03:30

This is the money. And so that's \$100 bill that is under this coding Ryan tax. And so when you this very expensive solution, you take this and duck it in there and the white comes off the \$100 bill, right. Okay. Shall we?

03:56

Yes, if you think it will happen.

03:59

No, you tell me Yes, you've seen it happen, right?

04:01

Yes, I have that. Like I say I see it soaked in solution first before you put it in the water. Okay,

04:08

how you want to do this? No, no, no. That way that's fine. No, no I don't. Because I want to do it the way you say that it needs to be done.
